A	4
Question	
Question	

Here are 4 DNA sequences from 4 different species :

Seq 1: 5' GTATAGGGGATATACTGAGAGCTATTTACA3' Seq 2: 5'GTATTGGCGATATTCCGGAGACCTATTTACT3' Seq 3: 5'CTATTGGCCATATTCCGAGACCTATTTACT3' Seq 4: 5' GTATAGGCGATATACCGAGACCTAATTACT3'

Using the UPGMA method, build a tree depicting the phylogenetic distances between all 4 species (vertical time scale):

past	
present :
