

- GlobalData Plc is a world leading data analytics and consulting company
- It is headquartered in London and established in 1999
- Over 3000 employees in different countries
- Provides Unique data, expert analysis, and innovative solutions
- Specific data reporting and market-specific research
- Here, we have access to two Industry Intelligence Centers: Medical Devices and Pharma

The screenshot shows the GlobalData Medical Devices Intelligence Center interface. The top navigation bar includes links for Companies, Sectors, Countries, Databases, Analysis, News, Tools, Services, Webinars, and Themes. A search bar is located in the top right corner. Below the navigation bar, there is a section for 'My Tools' with links for Competitive Intelligence and Sales Intelligence. A 'Switch Intelligence Center' button is highlighted with a green box. A 'My GlobalData' button is also highlighted with a red box. A blue arrow points from the 'My GlobalData' button to a dropdown menu. The dropdown menu contains options for 'Manage Account', 'My GlobalData', and 'Help & Support'. A 'Switch Intelligence Center' button is also highlighted with a green box in the dropdown menu. A blue arrow points from the 'Switch Intelligence Center' button in the dropdown menu to the text 'Switch between Centers (Medical Device and Pharma) to find more data for each category'. A blue arrow points from the 'Search' button in the top right corner to a search box. A blue arrow points from the 'Switch Intelligence Center' button in the dropdown menu to the search box. Foundation Medicine Inc | Overview

(Key Subsidiary of F. Hoffmann-La Roche Ltd)

Company Summary

Foundation Medicine Inc (Foundation Medicine) is a molecular information products provider. The company provides molecular information and cancer research programs. It offers clinical products such as FoundationOne for solid tumors and FoundationOne Heme for blood-based cancers or hematologic malignancies, including leukemia, lymphoma and sarcomas. Foundation Medicine also offers FoundationOne Liquid CDx, a blood-based circulating tumor DNA assay for solid tumors and FoundationOne CDx, a diagnostic assay for solid tumors. It also provides additional materials, services and real-time data through its technology products. The company partners with biotech and pharmaceutical companies to develop targeted cancer therapies and active clinical trials. Foundation Medicine is headquartered in Cambridge, Massachusetts, the US.

F. Hoffmann-La Roche Ltd | SWOT

My GlobalData Tools v

F. Hoffmann-La Roche Ltd (Roche) is one of the prominent research-based healthcare groups in the world. Strong research and development (R&D) capabilities enabled Roche to come up with a regular flow of new drugs and diagnostics, established position, and improved segment revenue for pharmaceuticals are its strengths, even as product recall could be a cause for concern. Launch of new products and regulatory approvals, promising product pipeline and strategic initiatives could provide ample growth opportunities to the company. However, intense competition, environmental risks and government regulations could hamper Roche's business, operating results and financial position.
