

Microwaves 2024

General information

The course material can be found on the course's MOODLE page

The responsible of the course is Prof. Anja Skrivervik (anja.skrivervik@epfl.ch, 34636)

The teaching assistants is and Amir Ahmadi (amir.ahmadi@epfl.ch)

Not all chapters will be covered during the semester, some of them are provided as a reference. Copies of the slides, exercises and their solutions will be provided on the same webpage.

"Contrôle continu", tests and exam

As this course is examined using a "contrôle continu" system, there will be no exam during the winter exam period. The mark is obtained by doing two tests (one situated after midterm, the other at the end of the term), **which are compulsory**.

Date of the first test: 14.11.24 (The test will be on chapters 1 to 4).

Date of the second test: 12.12.24 (The test will cover all the course topics)

The final grade will be obtained according to the following rules:

$$\text{grade} = \left\lceil \frac{TE1 + TE2}{2} \right\rceil$$

where TE1 and TE2 are the grades of test1 and test2 respectively. Please note that the will be graded using steps of quarter of points (i.e. 1, 1.25, 1.5, ...4, 4.25,5.5, 5.75, 6). The final grade will also be rounded to the closest quarter of point.
