

	Treatment technology	Treatment objectives	Treatment products	Level of technology development
	Settling-thickening			
	Mechanical dewatering			
	Unplanted drying beds			
	Planted drying bed			
	Co-composting			
	Deep row entrenchment			
	Incineration			
	Anaerobic digestion			
	Black soldier fly larvae			
	Thermal drying			
	Waste stabilization ponds			
	Vermifilter			
	Anaerobic baffled reactor			

Activity: Icon Key

Treatment objectives	Use	Level of technology development
Dewatering 	Agriculture, horticulture 	Established 
Nutrient Management 	Biogas 	Transferring 
Stabilization 	 Solid fuel	Innovative 
Pathogen Inactivation 	Irrigation 	
	Aquaculture 	
	Construction (building materials) 	
	Forestry 	
	Livestock
