

BIO-205: General instructions for the revisions and exam (3h)

Camille Goemans

About the questions (week 14):

- Thursday 18th December: 2h of questions and answers instead of the lecture. Only for those who have questions.

About the exam – Monday 19 January 15.15-18.15, 4 rooms

- You will get information about the **room** you need to go to on Moodle, a few days before the exam. It will also be on the door of the different rooms.
- Materials:
 - What you will bring
 - **Pen (black or blue, no other colors), eraser (important!)**
 - Your **camipro** (no exam without this)
 - No calculator, phone, tablet, smartwatch, ...
 - What we will provide
 - The exam
 - Draft paper (not really necessary)
 - **None of this material will be leaving the room with you after the exam**
- Exam format
 - 30 multiple choice questions
 - Only one correct answer
 - **You cannot pick several ones. If you do, you will have 0 for that question.**
 - No negative points
 - 30 TRUE and FALSE
 - Negative points
 - The order of questions in each exam and of their proposed answers is random for each copy, so cheating on your neighbors will not give you're the right answer.
 - **Make sure to read the exam instructions (different pdf file)**

You will find the same instructions on the first page of the exam – make sure to read them properly before starting.
