Oral Exam Nintendo DS Projects - Systèmes Embarqués Microprogrammés

During the oral exam, the members of each team will need to answer the specific questions asked by the professor and TAs about the project development on the Nintendo DS platform and its functionality. The project presentations can be in French or English (each group decides), and a live demo of the project working on the Nintendo DS must be shown.

Please arrive 15 minutes before your assigned slot for practical reasons.

Tuesday 20th, Jan 2026, from 8h20 onwards; Room: ELG 123 (EPFL Campus)
