

Installation of Thermo-Calc

Please follow the following steps for the installation of Thermo-Calc on your laptop:

1. Download the installer using the link below (.exe file for Windows)

Thermo-Calc 2024b

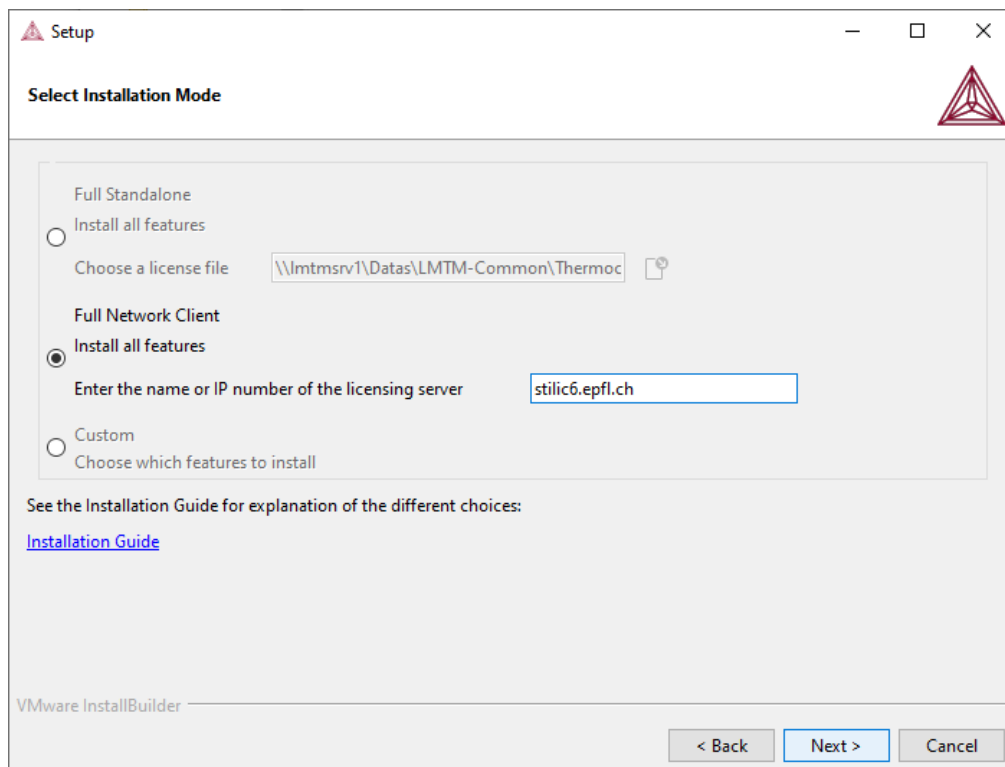

<https://resources.thermocalc.com/2024b-download-links-by-os-version>

user: software

pass: MDZmZjI1NjBiYjU4ZmE3NGEyZmZkZWUx

IMPORTANT!! You need to be logged into the EPFL Network to install and use Thermo-Calc.

2. Install the software (right-click on the installer, run as administrator)
3. Select Network Client (NOT Standalone) as setup type and enter IP number or name of EPFL license server (Name: stilic6.epfl.ch, IP: 128.178.242.110):

4. Complete the installation
5. Open Thermo-Calc to make sure there are no errors...in case there are problems or you need to install Thermo-Calc on another OS, you can contact Dr. Nicholas Grundy (nicholas@thermocalc.com).
