

May 13th, 2025: Oral Presentation

You should present to the class the results of your project in a maximum of **15 minutes**. 8 minutes will be devoted to questions. The purpose of the presentation is to inform other students about your project, in such a way that everyone can follow what you have done. The presentation should include an introduction of the project, an indication of the work you performed, and the final design of your energy pile foundation. The oral presentation of your project will represent 10% of your final mark while the technical report (deadline June 3rd, 2025) will represent another 20%.

13/05/2025 - EG - PROJECT PRESENTATIONS				
Project nr.	Start	End	Title	Students
1	08:15	08:40	Project presentation 1	Pierre-Édouard Jacquier Patric Amal Luc Teuscher
2	08:40	09:05	Project presentation 2	Sebastien Müller Christelle Blanco Vincent Ritter
3	09:05	09:30	Project presentation 3	Mateo Morales Sven Portner Aiden Rossat Krasniqi Fation
4	09:30	09:55	Project presentation 4	Fiona Clavien Rose Schlageter Caroline Blazy
