EPFL

Exercise 6: Indicators from Goals
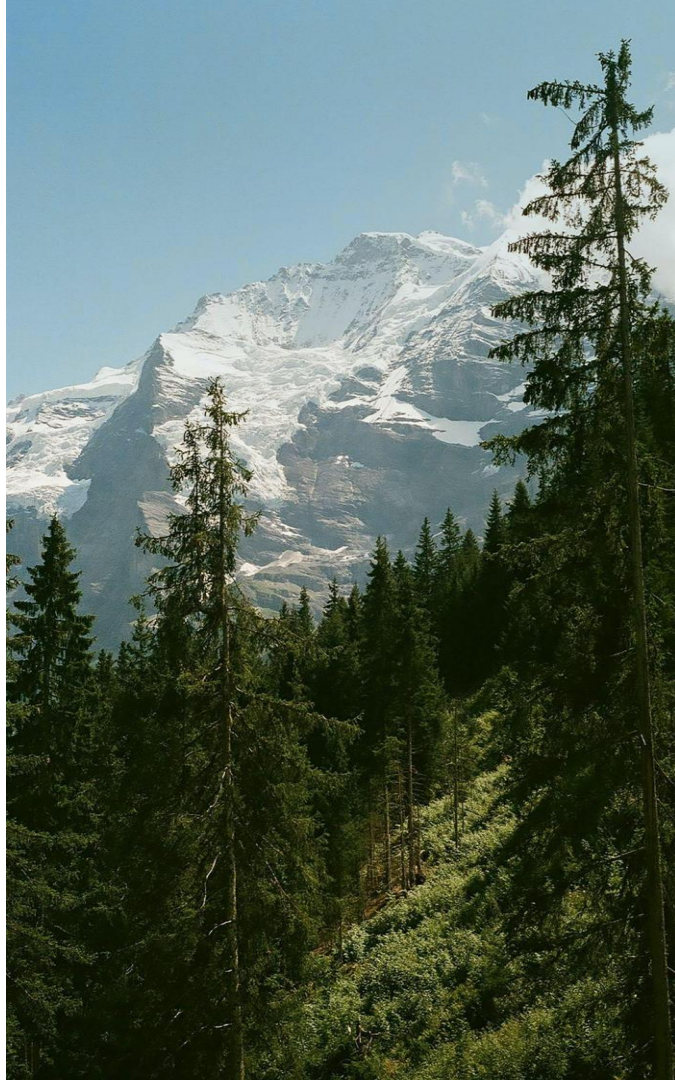

Laboratory on Human-Environment Relations in Urban Systems

TAs:
Simón Ladino Cano
Giulia Frigo
Ankita Singhvi
Hanbit Lee

March 26th, 2025

Domain-Goal-Indicator Example

Sustainability Assessment in Urban Systems

Sustainability Assessment in Urban Systems
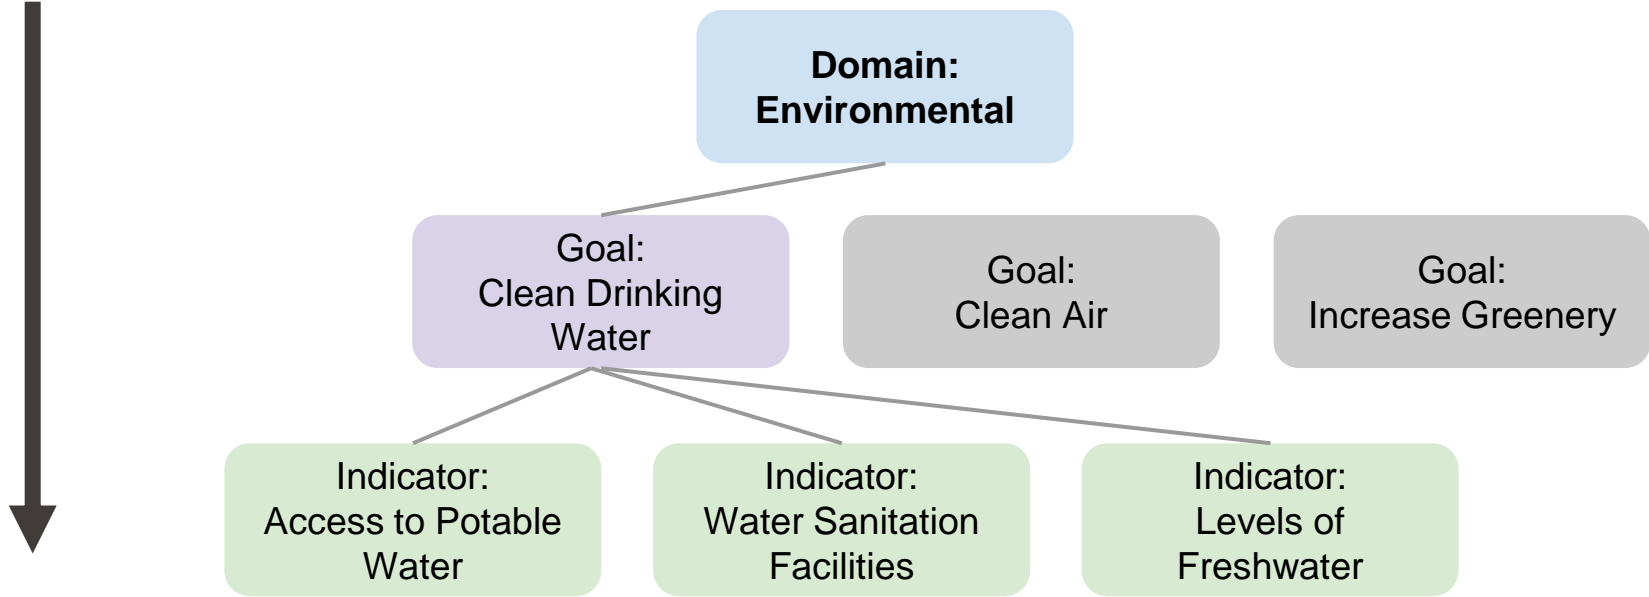

Instructions

1. Create Goals

   ○ If you have not finalized your goals, please make sure you have between 5-10 goals

2. Create Indicators

   ○ Select one of your goals and come up with ~10 indicators for the goal (aim to have a total of 60 indicators, max 20 will be required for the project)

   ○ If complete, repeat previous steps
