

## **Irrigation and Drainage Engineering (ENV-549)**

Date and time : 20-21/01/2025

Classroom : GC A1416

Oral Exam rules : please arrive on time. You'll be called inside the room from us. No preparation time is granted and no lecture material is allowed. The exam lasts about 25 mins. You'll pick-up three questions randomly from a pot and you'll answer them by writing down the essentials on a white paper sheet, in the presence of the instructor and the observer. White paper and pens are provided. If one question is considered difficult, there is the possibility to change it with a question (selected by the teacher) on the regenerative agriculture lecture

Please, contact immediately the instructor should the timetable below not be convenient for you. You can suggest a change yourself provided that you have previously agreed the swap with another colleague and she/he confirms the agreement per email.
