

# MATH-101(en) – Analysis I (English)

Roberto Svaldi

École Polytechnique Fédérale de Lausanne

September 22, 2021

# The team & resources

## The team

- Head teacher: Roberto Svaldi, IMA ([roberto.svaldi@epfl.ch](mailto:roberto.svaldi@epfl.ch));

# The team & resources

## The team

- Head teacher: Roberto Svaldi, IMA ([roberto.svaldi@epfl.ch](mailto:roberto.svaldi@epfl.ch));
- Head assistant: Stefano Filipazzi, IMA ([stefano.filipazzi@epfl.ch](mailto:stefano.filipazzi@epfl.ch));

# The team & resources

## The team

- Head teacher: Roberto Svaldi, IMA (roberto.svaldi@epfl.ch);
- Head assistant: Stefano Filipazzi, IMA (stefano.filipazzi@epfl.ch);
- 15 assistants.

# The team & resources

## The team

- Head teacher: Roberto Svaldi, IMA (roberto.svaldi@epfl.ch);
- Head assistant: Stefano Filipazzi, IMA (stefano.filipazzi@epfl.ch);
- 15 assistants.

## The resources

- In person interaction (lectures, exercise sessions) on campus;
- online: Zoom (streaming lectures) & Discord (exercise sessions);
- Moodle page of the course;
- Piazza (link on Moodle).

# Lectures

EPFL measures: Fall 2021

Mandatory COVID certificate for campus activities.

# Lectures

## EPFL measures: Fall 2021

Mandatory COVID certificate for campus activities.

Remote learning for students without COVID certificate.

# Lectures

## EPFL measures: Fall 2021

Mandatory COVID certificate for campus activities.

Remote learning for students without COVID certificate.

## Schedule

Mondays 8h15-10h00, PO 01 & Zoom streaming

Wednesdays 8h15-10h00, CO2& Zoom streaming

# Lectures

## EPFL measures: Fall 2021

Mandatory COVID certificate for campus activities.

Remote learning for students without COVID certificate.

## Schedule

Mondays 8h15-10h00, PO 01 & Zoom streaming

Wednesdays 8h15-10h00, CO2& Zoom streaming

Lectures are recorded and uploaded to SWITCHtube (see Moodle for link).

## Schedule

Mondays 8h15-10h00, PO 01 & Zoom streaming

Wednesdays 8h15-10h00, CO2& Zoom streaming

Lectures are recorded and uploaded to SWITCHtube (see Moodle for link).

## Live lectures

You are **strongly encouraged** to attend the live lectures on campus if you have a Covid certificate.

# Exercises

## Two-days model

Wednesdays: on campus & online.

Saturdays: on campus & online.

# Exercises

## Two-days model

Wednesdays: on campus & online.

Saturdays: on campus & online.

## Schedule

Wednesdays 10h15-12h00, rooms CM010, CO121, CO122, CO123, CO124 + online (Discord).

Saturdays 15h30-17h00, rooms CM011, CM012, CM013, GC C3 30 + online (Discord).

# Exercises

## Two-days model

Wednesdays: on campus & online.

Saturdays: on campus & online.

## Schedule

Wednesdays 10h15-12h00, rooms CM010, CO121, CO122, CO123, CO124 + online (Discord).

Saturdays 15h30-17h00, rooms CM011, CM012, CM013, GC C3 30 + online (Discord).

Instructions on which room to go are on Moodle.

**No recordings** for exercise sessions on Wednesdays/Saturdays.

# Safety and masks

Social distancing is **not guaranteed!!**

## EPFL directive

Everyone on campus is required to wear a mask everywhere – during all Analysis 1 lectures and exercise sessions, too!

# Safety and masks

Social distancing is **not guaranteed!!**

## EPFL directive

Everyone on campus is required to wear a mask everywhere – during all Analysis 1 lectures and exercise sessions, too!

## If sick/symptoms

Stay at home! You can watch on Zoom/see recordings.  
Get tested!

# Materials

## Materials

- Annotated slides from lectures; (on Moodle before/after each lecture)

# Materials

## Materials

- Annotated slides from lectures; (on Moodle before/after each lecture)
- Recordings of lectures; (on Moodle right after each lecture)

# Materials

## Materials

- Annotated slides from lectures; (on Moodle before/after each lecture)
- Recordings of lectures; (on Moodle right after each lecture)
- Notes from the course; (on Moodle by the end of each week)

# Materials

## Materials

- Annotated slides from lectures; (on Moodle before/after each lecture)
- Recordings of lectures; (on Moodle right after each lecture)
- Notes from the course; (on Moodle by the end of each week)
- Book: J. Douchet, B. Zwahlen, "Calcul différentiel et intégral";

# Materials

## Materials

- Annotated slides from lectures; (on Moodle before/after each lecture)
- Recordings of lectures; (on Moodle right after each lecture)
- Notes from the course; (on Moodle by the end of each week)
- Book: J. Douchet, B. Zwaalen, "Calcul différentiel et intégral"; (no e-book)

- Notes from the course; (on Moodle by the end of each week)
- Book: J. Douchet, B. Zwaalen, "Calcul différentiel et intégral"; (no e-book)
- Exercise sheets; (on Moodle on Mondays; solution will appear the following Sunday)

Small forum on Moodle for communications and questions about logistics/organization ("News forum").

# Exercise sessions, II

## Assistants

Live sessions: 2(W)/1(S) assistants/room .

Online sessions: 1/2 assistants on Discord both W and S.

# Exercise sessions, II

## Assistants

Live sessions: 2(W)/1(S) assistants/room .

Online sessions: 1/2 assistants on Discord both W and S.

## Exercises

Posted on Mondays on Moodle, right after the lecture.

Solutions appear the following Sunday, at noon.

Discussed during the exercise sessions on Wednesdays.

# Exercise sessions, II

## Assistants

Live sessions: 2(W)/1(S) assistants/room .

Online sessions: 1/2 assistants on Discord both W and S.

## Exercises

Posted on Mondays on Moodle, right after the lecture.

Solutions appear the following Sunday, at noon.

Discussed during the exercise sessions on Wednesdays.

## Assistants are there to help you!

- They answer students' questions on material/exercises;
- They can give some hints on the exercises; but they *will not* solve the exercises for you!

# Exam

- The exam will be held in January/beginning of February.
- Exam= 100% of your grade for the course.
- It will cover the material explained in class: Exercises will help you get ready for it.

# Piazza

## Challenges for the semester

- Stimulate mathematical questions/discussions for you (the students);
- Help you get familiar with a new system, environment, community.

# Piazza

## Challenges for the semester

- Stimulate mathematical questions/discussions for you (the students);
- Help you get familiar with a new system, environment, community.

## Piazza

Forum for mathematical discussions.

Students ask questions and can answers them; assistants/professor act as moderators.

# Piazza

## Challenges for the semester

- Stimulate mathematical questions/discussions for you (the students);
- Help you get familiar with a new system, environment, community.

## Piazza

Forum for mathematical discussions.

Students ask questions and can answers them; assistants/professor act as moderators.

Check it out.

Post your Q&A on course content and exercises there.

# Safety and masks

## Important things to remember

- 1 Mandatory COVID certificate for campus activities.  
Remote learning for students without COVID certificate.
- 2 Everyone on campus is required to wear a mask everywhere – during all Analysis 1 lectures and exercise sessions, too!

**Be an example:**

# Safety and masks

## Important things to remember

- 1 Mandatory COVID certificate for campus activities.  
Remote learning for students without COVID certificate.
- 2 Everyone on campus is required to wear a mask everywhere – during all Analysis 1 lectures and exercise sessions, too!

**Be an example:** *always* wear the mask and ask others to wear it.

Thank you!
