

Exam 1 - Instructions

Please read these instructions carefully.

Just before the start of the Exam

i Ensure you are seated at the indicated seat in your assigned room and ready to start on time. The first group's exam will take place from 13h00 pm to 15h00 pm, and the second group from 15h30 to 17h30.

- Locate your room and find your seat (check moodle, check the listing in front of the room)
 - Put your camipro card on your table
 - Start your computer
- ▶ If your computer does not work please report it as quickly as possible to the assistants.

Rules:

- On your laptop, phone or tablet, make sure to close:
 - Any communication software (whatsapp, slack, etc...)

Beginning of the Exam

i The Exam **starts at 13h00 (or 15h30 for group 2)** and you have **2h00 in total**, except special arrangements.

To start the Exam:

Access noto:

- Open a web browser.
- Go to <https://noto.epfl.ch/hub/user-redirect/git-pull?repo=https%3A%2F%2Fgithub>
- Log in using your credentials.

Exam Notebook:

- **Do not change the name of any files.**
- **Once the Exam starts, you will see a folder called “MATH-265-exam” into your noto workspace.**

▶ If you don't see this folder once the Exam has started, please contact the assistants as quickly as possible.

- Open the notebook “exam.ipynb” and start to work directly into the notebook, following the instructions in the notebook

⚠ Do not rename or move the notebook!

- Make sure to **save your work regularly** either by clicking on the floppy icon () at the top of the notebook, clicking on the menu File > Save Notebook or by using the keyboard shortcut Ctrl+s
- **Working in the Notebook:**
 - You may add cells if needed, as long as the notebook runs without errors.
 - ▶ **DO NOT REMOVE any existing cells.**

-  **Do not include any `print` statements in the functions.** Print statements cause errors in the grading algorithm, so you must remove any added print statements in your code so that your grade will not be affected.

Rules:

- You can access all the course documents and the previous notebooks, your notes, and search the web.
- You are allowed to use ChatGPT.
- It is prohibited to communicate with any other person, whether by electronic means or in the room.

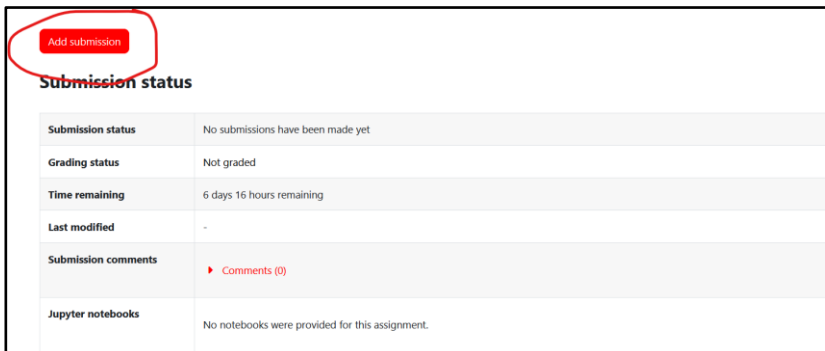

End of the Exam

 You are **not allowed to leave the room before time is over**, which will be indicated by the assistants (normally 15 minutes before the exam ends).

You MUST submit your work before leaving the room.

Follow this procedure to submit your work:

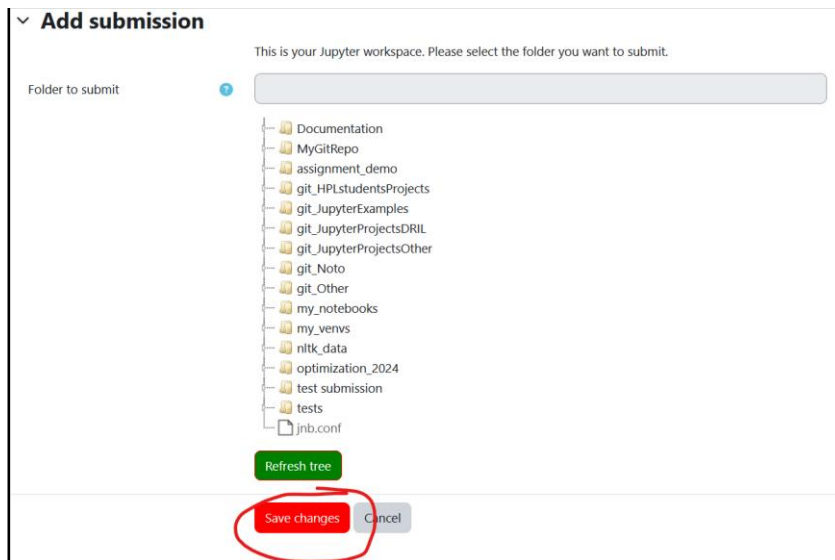

1. Make sure to **save your work in the notebook** either by clicking on the floppy icon () at the top of the notebook, clicking on the menu `File > Save Notebook` or by using the keyboard shortcut `Ctrl+s`
2. Make sure to check that your notebook is running without any error, and remove any added print statement that you added to the cells. Print statements cause errors in the grading algorithm.
3. Go to the moodle page of the course: <https://moodle.epfl.ch/course/view.php?id=14491>
4. Find the section called “Submit your Exam”
5. Click on the button “Add submission”

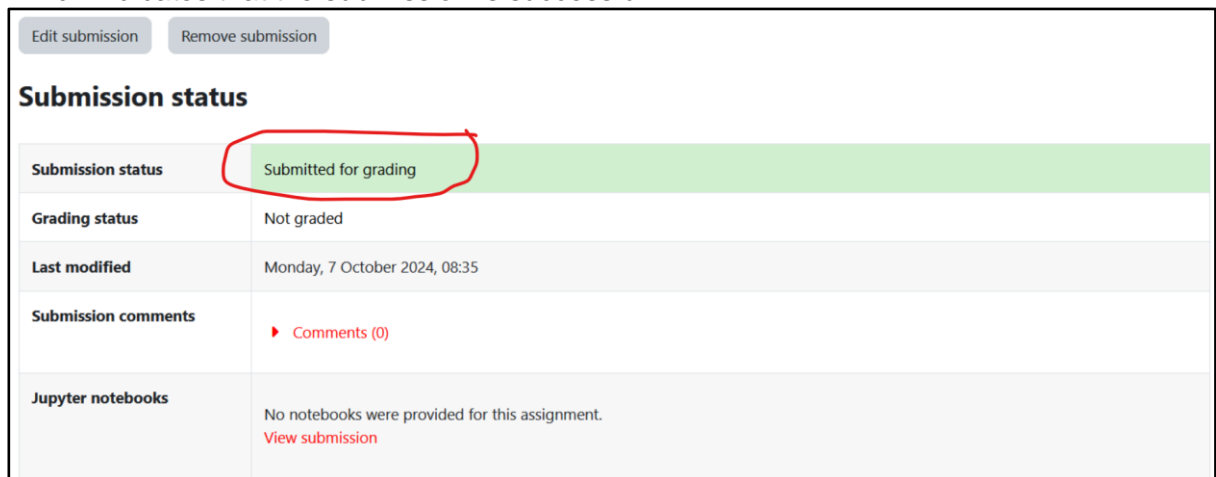

Submission status	
Submission status	No submissions have been made yet
Grading status	Not graded
Time remaining	6 days 16 hours remaining
Last modified	-
Submission comments	 Comments (0)
Jupyter notebooks	No notebooks were provided for this assignment.

6. You should see the content of your noto workspace:
 -  Select the **folder “MATH-265-exam”** in which you have worked
 -  Click on the button “Save changes”

This will make a **copy of the whole folder with all its content, zip it and send it to moodle**. That is why it is important that the folder contains only the notebook and nothing else.

7. You should then see a screen with a green line at the top indicating “Submitted for grading”, which indicates that the submission is successful.

Note: you should just ignore the sentence "No notebooks were provided for this Exam" as it only indicates that the teacher has not provided a notebook for the Exam in moodle.

If you want to check what you have submitted, you can use the link "View submission" at the bottom of the screen: this will make a copy of your submission back into your noto workspace. In noto, you can then open this copy and check that it contains what you want.

⚠ Once you have submitted your notebook to moodle, any change that you make on your notebook on noto is ignored!

If you want the changes to be taken into account for grading, you **MUST** resubmit your work - provided that time is not over and that you are still in the exam room.
