

The mid-term examination of the solid mechanics course will take place on:

May 27 from 10:15 to 12:00

The material for the exam will be the material covered from the 8th to 14th week of the semester and will count 50% of the final grade.

During the examination, you will be allowed to have:

1. the slides presented during the lectures.
2. the handouts APPENDICES A, B, C, D (see Moodle).
3. APPENDICES A and B from the book by Botsis & Deville.

All the above material will be without any notes or written annotations. Also, you can have a calculator without any storage capability.

Please have with you a few blank paper sheets to write on, pens and a simple calculator without any storage capability.

Details on the place will be given in due time.
