

Support before Exam

Before the exam we will provide support as follows:

1. Dedicated section on moodle

- **Exams from past years**
- **Forum on Moodle for Q&A**

2. Live Q&A session – On W14 Recordings from prior-years revision sessions will be made available. A Zoom Q&A session will be organized closer to the exam

- **Zoom Revision Session:** TDB

Rules for the Exam ME-341

- When/where/duration: **TBD**
[I will inform you beforehand how we split the alphabetic order between the rooms, special time allocations will be taken care of]
- **Bring your own copy of the formula sheet (you are allowed to add a few notes to it)***
- **Bring your own copy of the thermophysical tables (you can add a few notes to it)***
- No book is allowed, no electronic device (e.g. cellphone)
- Don't forget your **calculator** (programmable calculators are allowed)
- Don't forget your **EPFL ID card (CAMIPRO)**
- Don't forget a few **blue/black pens** (pencils are NOT allowed, red pens are NOT allowed)
- If you need it, **an English/French dictionary is allowed**. Assistants will inspect the dictionary throughout the exam.

*The formula sheet and the thermophysical tables are available in pdf format on moodle (top of the page). You can add some notes to both of them to help you use them correctly (e.g. clarify the meaning of the variables, highlight a multiplicative factor you should not forget etc.). You can have underlined/highlighted parts with various colors if that helps you navigate and use them.
